## SPOT THE BIG FIVE SPECIAL - 4 days

*The experience of a Tanzania Safari to the world-famous Serengeti National Park and Ngorongoro Crater, declared as one of the 7 natural wonders.*

### **Accommodations:**

#### ❑ Africa Safari Lake Manyara, Lake Manyara · *Full Board meal plan*

Africa Safari Lake Manyara is located between the foot of the Ngorongoro Crater and Lake Manyara, centrally located between some world famous National Parks. Facing the east we look over the Lake Manyara landscape and to the west towards the highlands of the Ngorongoro Crater, also known as the seventh world wonder.

#### ❑ Africa Safari Serengeti Central, Serengeti National Park · *Full Board meal plan*

Africa Safari Serengeti is located at the Seronera area inside Serengeti National park. It's truly an area of abundance in flora, fauna and cultural attributes. Africa Safari Serengeti Central is for travellers who enjoy being in great locations for wildlife viewing.

### **Destinations visited:**

#### ❑ Lake Natron National Park

Lake Natron is a salt and soda lake in Arusha Region in northern Tanzania. The lake is close to the Kenyan border and is in the Gregory Rift, which is the eastern branch of the East African Rift. The lake is within the Lake Natron Basin, a Ramsar Site wetland of international significance.

#### ❑ Serengeti National Park

The Serengeti National Park is a Tanzanian national park in the Serengeti ecosystem in the Mara and Simiyu regions. It's famous for its annual migration of over 1.5 million white-bearded (or brindled) wildebeest and 250,000 zebra and for its numerous Nile crocodile and honey badger.

#### ❑ Ngorongoro National Park

The Ngorongoro Conservation Area is a protected area and a World Heritage Site located 180 km west of Arusha in the Crater Highlands area of Tanzania. The area is named after Ngorongoro Crater, a large volcanic caldera within the area. It's the world's largest inactive, intact and unfilled volcanic caldera. The crater, which formed when a large volcano exploded and collapsed on itself two to three million years ago, is 610 metres deep and its floor covers 260 square kilometres.

#### ❑ Tarangire National Park

Tarangire National Park is the sixth largest national park in Tanzania, it is located in Manyara Region. The name of the park originates from the Tarangire River that crosses the park. The Tarangire River is the primary source of fresh water for wild animals in the Tarangire Ecosystem during the annual dry season. The Tarangire Ecosystem is defined by the long-distance migration of wildebeest and zebras. During the dry season thousands of animals concentrate in Tarangire National Park from the surrounding wet-season dispersal and calving areas.
